

THE UNIVERSITY OF WISCONSIN
MADISON 5

Institute for Enzyme Research
1702 University Avenue

July 20, 1954

Dear Josh:

I am sorry to bother you during your vacations, but all of a sudden I got the information about an opening in the Med. School of The U. of Illinois in Chicago.

The position is with Richard Winzler and Lardy talk with him by phone this afternoon. Winzler said that he will like if you could write him a letter of recommendation about me.

I will appreciate very much if you could write that letter in the near future because there are six other candidates for the position who have already sent all the information.

The address is : Richard Winzler, Dep. of Biochemistry, Medical School, Univ. of Illinois, Chicago, Ill.

Please say hello for me to Harlyn, I will write him one of these days.

Best regards for Esther and you.

Boris
